FOR IMMEDIATE RELEASE:

Urban Edge Properties Reports Third Quarter 2015 Operating Results

NEW YORK, NY, November 4, 2015 - Urban Edge Properties (NYSE:UE) announced today its financial results for the three and nine months ended September 30, 2015.

Third Quarter 2015 Highlights:

- Generated Recurring Funds from Operations of \$0.30 per diluted share for the quarter, and \$0.90 per diluted share for the nine months ended September 30, 2015
- Generated Funds from Operations ("FFO") of \$0.32 per diluted share for the quarter and \$0.63 per diluted share for the nine months ended September 30, 2015. FFO for the three months ended September 30, 2015 includes \$0.02 per diluted share of tenant bankruptcy settlement income. FFO for the nine months ended September 30, 2015 includes \$0.28 per diluted share in transaction costs and one-time equity awards associated with our spin-off from Vornado Realty Trust, offset by \$0.01 per diluted share from other items
- Increased same-property Net Operating Income ("NOI") by 4.1% (3.1% including properties in redevelopment) as compared to the third quarter of 2014, and by 3.6% (3.5% including properties in redevelopment) for the nine months ended September 30, 2015 as compared to the same period in 2014
- Increased same-property retail portfolio occupancy 80 basis points to 96.6% as compared to September 30, 2014 which was unchanged as compared to June 30, 2015
- Consolidated retail portfolio occupancy increased 70 basis points to 96.1% as compared to September 30, 2014 and by 10 basis points compared to June 30, 2015
- Executed 32 new leases, renewals, and options during the quarter totaling 506,600 square feet. Same-space leases totaled 192,700 square feet at an average rent spread of 0.8%.
- Increased active development and redevelopment projects by \$26.2 million to \$105.7 million due to the addition of new projects at Garfield, NJ and Walnut Creek, CA
- Shadow development and redevelopment pipeline consists of approximately \$175.0 million of additional projects to be completed over the next several years

- Ended the quarter with \$197.3 million cash and cash equivalents and no amounts drawn on the \$500.0 million revolving credit facility

Financial Highlights:

Recurring FFO was \$31.9 million, or \$0.30 per diluted share, for the third quarter of 2015. Recurring FFO was \$95.2 million, or \$0.90 per diluted share, for the nine months ended September 30, 2015.

FFO was \$33.5 million, or \$0.32 per diluted share, for the third quarter of 2015 which includes \$1.8 million of tenant bankruptcy settlement income and \$0.2 million of nonrecurring transaction costs. FFO was \$66.3 million, or \$0.63 per diluted share, for the nine months ended September 30, 2015. FFO for the nine months ended September 30, 2015 includes \$29.6 million of non-recurring transaction costs and one-time equity awards primarily associated with our spin-off from Vornado Realty Trust, \$1.4 million of environmental remediation costs, and \$1.0 million of debt restructuring costs, partially offset by \$3.1 million of tenant bankruptcy settlement income.

Net income attributable to common shareholders was \$18.9 million, or \$0.19 per diluted share, for the quarter ended September 30, 2015, and \$23.6 million, or \$0.24 per diluted share, for the nine months ended September 30, 2015.

A reconciliation of net income attributable to common shareholders to FFO and the reconciling components of FFO to Recurring FFO are provided in the tables accompanying this press release.

Operating Highlights:

Same-property NOI increased 4.1% for the third quarter of 2015 as compared to the third quarter of 2014 due to higher occupancy, new rent commencements, contractual rent increases, higher recoveries and lower landlord expenses. Same-property NOI increased 3.6% for the nine months ended September 30, 2015 as compared to the same period of 2014. Same-property NOI including properties under redevelopment increased 3.1% for the third quarter of 2015 as compared to the third quarter in 2014. Same-property NOI including properties under redevelopment increased 3.5% for the nine months ended September 30, 2015 as compared to the same period of 2014. A reconciliation of income before income taxes to same-property NOI is provided in the tables accompanying this press release.

As of September 30, 2015, occupancy for the company's consolidated retail portfolio was 96.1%, up 70 basis points compared to September 30, 2014, and up 10 basis points compared to June 30, 2015. On a same-property basis, retail portfolio occupancy was 96.6%, up 80 basis points compared to September 30, 2014, and unchanged as compared to June 30, 2015.

During the third quarter of 2015, the company executed 32 new leases, renewals and options totaling 506,600 square feet. The vast majority of leasing activity pertained to non same-space leases for assets in redevelopment and new pad expansions. The company executed 9 new leases on a non same-space basis during the quarter totaling 313,800 square feet at an average rental rate of \$9.15 per square foot, including two warehouse leases totaling 218,400 square feet at an average rental rate of \$5.15 per square foot.

On a same-space basis, 8 new leases were executed in the third quarter totaling 14,400 square feet at an average rental rate of \$34.49 per square foot, representing a 16.5% decrease from prior cash rents (excluding the impact of straight-line rents). The limited number of same-space leases executed this quarter is not expected to be indicative of future activity. For the nine months ended September 30, 2015, 23 same-space leases were executed at an average rental rate of \$27.63 per square foot, representing a 14.7% increase from prior cash rents.

During the third quarter of 2015, the company executed 15 lease renewals and options on a same-space basis totaling 178,400 square feet at an average rental rate of \$17.62 per square foot, representing a 4.2% increase from prior cash rents. The total same-space leasing activity in the third quarter (new leases, renewals and options) aggregated 192,700 square feet at an average rental rate of \$18.87 per square foot, a 0.8% increase from prior cash rents.

Development and Redevelopment Activities:

The company had approximately \$105.7 million of active development and redevelopment projects underway of which \$80.1 million remains to be funded as of September 30, 2015. Estimated unleveraged returns on these projects are approximately 9%. Active development and redevelopment projects increased \$26.2 million during the quarter ended September 30, 2015 due to two additional projects at Garfield, NJ and Walnut Creek, CA.

The renovation of warehouses at East Hanover is ahead of schedule and the stabilization date has been moved up from 2018 to 2017. The conversion of Montehiedra Town Center, a 542,000 square-foot mall in Puerto Rico, into an outlet-focused retail mall remains on schedule for completion in late 2016. We recently executed leases with Polo and Gap.

The company continues to focus on its redevelopment pipeline, which includes approximately \$175.0 million of planned expansions and renovations that the company expects to complete over the next several years.

Balance Sheet Highlights:

At September 30, 2015, the company's total market capitalization (including debt and equity) was \$3.5 billion comprised of 105.4 million shares of common shares outstanding (on a fully diluted basis) valued at approximately \$2.3 billion and approximately \$1.2 billion of debt. The company's ratio of net debt (net of cash) to total market capitalization was 29.8%. The company's net debt to annualized Adjusted EBITDA was 5.7x as of September 30, 2015. At September 30, 2015, the company had approximately \$197.3 million of cash and cash equivalents on hand and nothing drawn on its \$500.0 million revolving credit facility.

Non-GAAP Financial Measures

The company believes FFO (combined with the primary GAAP presentations) is a useful, supplemental measure of its operating performance that is a recognized metric used extensively by the real estate industry and, in particular REITs. The National Association of Real Estate Investment Trusts ("NAREIT") stated in its April 2002 White Paper on FFO, "Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves." The company also believes that Recurring FFO is a useful supplemental measure of its core operating performance that facilitates comparability of historical financial periods. FFO, as defined by NAREIT and the company, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of, or impairment charges related to, depreciable operating properties, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. The company makes certain adjustments to FFO, which it refers to as Recurring FFO, to account for items it does not believe are representative of ongoing operating results, including transaction costs associated with acquisition and disposition activity and non-recurring revenue and expenses. The company believes that financial analysts, investors and stockholders are better served by the presentation of comparable period operating results generated from its FFO and Recurring FFO measures. The company's method of calculating FFO and Recurring FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

The company uses NOI, which is a non-GAAP financial measure, internally as a performance measure and believes NOI provides useful information to investors regarding the company's financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level and when compared across periods, reflects the impact on operations from trends in occupancy rates, rental rates and operating costs on an unleveraged basis, providing perspective not immediately apparent from our operating income or net income. In this release, the company has provided NOI on a same-property basis. Information provided on a same-property basis includes the results of properties that were owned and operated for the entirety of the reporting periods being compared and excludes properties that were under development/redevelopment and properties acquired, sold, or in the foreclosure process during the periods being compared. The company has also provided NOI on a same-property basis adjusted to include redevelopment properties.

Earnings before interest, tax, depreciation and amortization ("EBITDA") and Adjusted EBITDA are supplemental, non-GAAP measures utilized in various financial ratios. EBITDA and Adjusted EBITDA are presented to assist investors in the evaluation of REITs and as a measure of the company's operational performance as they exclude various items that do not relate to or are not indicative of our operating performance. Accordingly, the company's use of EBITDA and Adjusted EBITDA in various ratios provides a meaningful performance measure as it relates to our ability to meet various coverage tests for the stated period.

FFO, Recurring FFO, NOI, same-property NOI, EBITDA and Adjusted EBITDA are presented to assist investors in analyzing the company's operating performance. Neither FFO nor Recurring FFO (i) represents cash flow from operations as defined by GAAP, (ii) is indicative of cash available to fund all cash flow needs, including the ability to make distributions, (iii) is an alternative to cash flow as a measure of liquidity, or (iv) should be considered as an alternative to net income (which is determined in accordance with GAAP) for purposes of evaluating the company's operating performance. The company believes net income attributable to common shareholders is the most directly comparable GAAP financial measure to FFO and Recurring FFO while income before income taxes is the most directly comparable GAAP financial measure to NOI and same-property NOI and net income (loss) is the most directly comparable GAAP financial measure to EBITDA and Adjusted EBITDA. Reconciliations of these measures to their respective comparable GAAP measures have been provided in the tables accompanying this press release.

Reconciliation of Net Income Attributable to Common Shareholders to FFO and Recurring FFO

The following table reflects the reconciliation of FFO and Recurring FFO to net income attributable to common shareholders, the most directly comparable GAAP measure, for the three and nine months ended September 30, 2015.

	Three Months Ended September 30, 2015	Nine Months Ended September 30, 2015
	(in thousands)	(in thousands)
Net income attributable to common shareholders	\$ 18,860	\$ 23,559
Adjustments:		
Rental property depreciation and amortization	13,452	41,102
Limited partnership interests in operating partnership	1,179	1,605
Funds From Operations	33,491	66,266
Funds From Operations per diluted share⁽¹⁾	0.32	0.63

One-time equity awards related to the spin-off	—	7,143
Environmental remediation costs	—	1,379
Tenant bankruptcy settlement income	(1,774)	(3,034)
Debt restructuring expenses	—	1,034
Recurring Funds From Operations	\$ 31,868	\$ 95,225
Recurring Funds From Operations per diluted share⁽¹⁾	\$ 0.30	\$ 0.90
Weighted average diluted shares ⁽¹⁾	105,436	105,351

⁽¹⁾ Weighted average diluted shares used to calculate FFO per share and Recurring FFO per share for all periods presented is higher than the GAAP diluted weighted average shares as a result of the dilutive impact of the 6.1 million Operating Partnership and LTIP units which are redeemable into our common shares. These redeemable units are not included in the diluted weighted average share count for the periods presented for GAAP purposes because their inclusion is anti-dilutive.

FFO and Recurring FFO are non-GAAP financial measures. The company believes that FFO, as defined by NAREIT, is a widely used and appropriate supplemental measure of operating performance for REITs, and that it provides a relevant basis for comparison among REITs. The company believes that Recurring FFO provides additional comparability between historical financial periods. Refer to "Non-GAAP Financial Measures" above.

NOI and same-property NOI are non-GAAP financial measures. The company believes that same-property NOI is a widely used and appropriate supplemental measure of operating performance for comparison among REITs. Refer to "Non-GAAP Financial Measures" above.

FOR IMMEDIATE RELEASE:

Urban Edge Properties Reports Third Quarter 2015 Operating Results

NEW YORK, NY, November 4, 2015 - Urban Edge Properties (NYSE:UE) announced today its financial results for the three and nine months ended September 30, 2015.

Third Quarter 2015 Highlights:

- Generated Recurring Funds from Operations of \$0.30 per diluted share for the quarter, and \$0.90 per diluted share for the nine months ended September 30, 2015
- Generated Funds from Operations ("FFO") of \$0.32 per diluted share for the quarter and \$0.63 per diluted share for the nine months ended September 30, 2015. FFO for the three months ended September 30, 2015 includes \$0.02 per diluted share of tenant bankruptcy settlement income. FFO for the nine months ended September 30, 2015 includes \$0.28 per diluted share in transaction costs and one-time equity awards associated with our spin-off from Vornado Realty Trust, offset by \$0.01 per diluted share from other items
- Increased same-property Net Operating Income ("NOI") by 4.1% (3.1% including properties in redevelopment) as compared to the third quarter of 2014, and by 3.6% (3.5% including properties in redevelopment) for the nine months ended September 30, 2015 as compared to the same period in 2014
- Increased same-property retail portfolio occupancy 80 basis points to 96.6% as compared to September 30, 2014 which was unchanged as compared to June 30, 2015
- Consolidated retail portfolio occupancy increased 70 basis points to 96.1% as compared to September 30, 2014 and by 10 basis points compared to June 30, 2015
- Executed 32 new leases, renewals, and options during the quarter totaling 506,600 square feet. Same-space leases totaled 192,700 square feet at an average rent spread of 0.8%.
- Increased active development and redevelopment projects by \$26.2 million to \$105.7 million due to the addition of new projects at Garfield, NJ and Walnut Creek, CA
- Shadow development and redevelopment pipeline consists of approximately \$175.0 million of additional projects to be completed over the next several years
- Ended the quarter with \$197.3 million cash and cash equivalents and no amounts drawn on the \$500.0 million revolving credit facility

Financial Highlights:

Recurring FFO was \$31.9 million, or \$0.30 per diluted share, for the third quarter of 2015. Recurring FFO was \$95.2 million, or \$0.90 per diluted share, for the nine months ended September 30, 2015.

FFO was \$33.5 million, or \$0.32 per diluted share, for the third quarter of 2015 which includes \$1.8 million of tenant bankruptcy settlement income and \$0.2 million of nonrecurring transaction costs. FFO was \$66.3 million, or \$0.63 per diluted share, for the nine months ended September 30, 2015. FFO for the nine months ended September 30, 2015 includes \$29.6 million of non-recurring transaction costs and one-time equity awards primarily associated with our spin-off from Vornado Realty Trust, \$1.4 million of environmental remediation costs, and \$1.0 million of debt restructuring costs, partially offset by \$3.1 million of tenant bankruptcy settlement income.

Net income attributable to common shareholders was \$18.9 million, or \$0.19 per diluted share, for the quarter ended September 30, 2015, and \$23.6 million, or \$0.24 per diluted share, for the nine months ended September 30, 2015.

A reconciliation of net income attributable to common shareholders to FFO and the reconciling components of FFO to Recurring FFO are provided in the tables accompanying this press release.

Operating Highlights:

Same-property NOI increased 4.1% for the third quarter of 2015 as compared to the third quarter of 2014 due to higher occupancy, new rent commencements, contractual rent increases, higher recoveries and lower landlord expenses. Same-property NOI increased 3.6% for the nine months ended September 30, 2015 as compared to the same period of 2014. Same-property NOI including properties under redevelopment increased 3.1% for the third quarter of 2015 as compared to the third quarter in 2014. Same-property NOI including properties under redevelopment increased 3.5% for the nine months ended September 30, 2015 as compared to the same period of 2014. A reconciliation of income before income taxes to same-property NOI is provided in the tables accompanying this press release.

As of September 30, 2015, occupancy for the company's consolidated retail portfolio was 96.1%, up 70 basis points compared to September 30, 2014, and up 10 basis points compared to June 30, 2015. On a same-property basis, retail portfolio occupancy was 96.6%, up 80 basis points compared to September 30, 2014, and unchanged as compared to June 30, 2015.

During the third quarter of 2015, the company executed 32 new leases, renewals and options totaling 506,600 square feet. The vast majority of leasing activity pertained to non same-space leases for assets in redevelopment and new pad expansions. The company executed 9 new leases on a non same-space basis during the quarter totaling 313,800 square feet at an average rental rate of \$9.15 per square foot, including two warehouse leases totaling 218,400 square feet at an average rental rate of \$5.15 per square foot.

On a same-space basis, 8 new leases were executed in the third quarter totaling 14,400 square feet at an average rental rate of \$34.49 per square foot, representing a 16.5% decrease from prior cash rents (excluding the impact of straight-line rents). The limited number of same-space leases executed this quarter is not expected to be indicative of future activity. For the nine months ended September 30, 2015, 23 same-space leases were executed at an average rental rate of \$27.63 per square foot, representing a 14.7% increase from prior cash rents.

During the third quarter of 2015, the company executed 15 lease renewals and options on a same-space basis totaling 178,400 square feet at an average rental rate of \$17.62 per square foot, representing a 4.2% increase from prior cash rents. The total same-space leasing activity in the third quarter (new leases, renewals and options) aggregated 192,700 square feet at an average rental rate of \$18.87 per square foot, a 0.8% increase from prior cash rents.

Development and Redevelopment Activities:

The company had approximately \$105.7 million of active development and redevelopment projects underway of which \$80.1 million remains to be funded as of September 30, 2015. Estimated unleveraged returns on these projects are approximately 9%. Active development and redevelopment projects increased \$26.2 million during the quarter ended September 30, 2015 due to two additional projects at Garfield, NJ and Walnut Creek, CA.

The renovation of warehouses at East Hanover is ahead of schedule and the stabilization date has been moved up from 2018 to 2017. The conversion of Montehiedra Town Center, a 542,000 square-foot mall in Puerto Rico, into an outlet-focused retail mall remains on schedule for completion in late 2016. We recently executed leases with Polo and Gap.

The company continues to focus on its redevelopment pipeline, which includes approximately \$175.0 million of planned expansions and renovations that the company expects to complete over the next several years.

Balance Sheet Highlights:

At September 30, 2015, the company's total market capitalization (including debt and equity) was \$3.5 billion comprised of 105.4 million shares of common shares outstanding (on a fully diluted basis) valued at approximately \$2.3 billion and approximately \$1.2 billion of debt. The company's ratio of net debt (net of cash) to total market capitalization was 29.8%. The company's net debt to annualized Adjusted EBITDA was 5.7x as of September 30, 2015. At September 30, 2015, the company had approximately \$197.3 million of cash and cash equivalents on hand and nothing drawn on its \$500.0 million revolving credit facility.

Non-GAAP Financial Measures

The company believes FFO (combined with the primary GAAP presentations) is a useful, supplemental measure of its operating performance that is a recognized metric used extensively by the real estate industry and, in particular REITs. The National Association of Real Estate Investment Trusts ("NAREIT") stated in its April 2002 White Paper on FFO, "Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves." The company also believes that Recurring FFO is a useful supplemental measure of its core operating performance that facilitates comparability of historical financial periods. FFO, as defined by NAREIT and the company, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of, or impairment charges related to, depreciable operating properties, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. The company makes certain adjustments to FFO, which it refers to as Recurring FFO, to account for items it does not believe are representative of ongoing operating results, including transaction costs associated with acquisition and disposition activity and non-recurring revenue and expenses. The company believes that financial analysts, investors and stockholders are better served by the presentation of comparable period operating results generated from its FFO and Recurring FFO measures. The company's method of calculating FFO and Recurring FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

The company uses NOI, which is a non-GAAP financial measure, internally as a performance measure and believes NOI provides useful information to investors regarding the company's financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level and when compared across periods, reflects the impact on operations from trends in occupancy rates, rental rates and operating costs on an unleveraged basis, providing perspective not immediately apparent from our operating income or net income. In this release, the company has provided NOI on a same-property basis. Information provided on a same-property basis includes the results of properties that were owned and operated for the entirety of the reporting periods being compared and excludes properties that were under development/redevelopment and properties acquired, sold, or in the foreclosure process during the periods being compared. The company has also provided NOI on a same-property basis adjusted to include redevelopment properties.

Earnings before interest, tax, depreciation and amortization ("EBITDA") and Adjusted EBITDA are supplemental, non-GAAP measures utilized in various financial ratios. EBITDA and Adjusted EBITDA are presented to assist investors in the evaluation of REITs and as a measure of the company's operational performance as they exclude various items that do not relate to or are not indicative of our operating performance. Accordingly, the company's use of EBITDA and Adjusted EBITDA in various ratios provides a meaningful performance measure as it relates to our ability to meet various coverage tests for the stated period.

FFO, Recurring FFO, NOI, same-property NOI, EBITDA and Adjusted EBITDA are presented to assist investors in analyzing the company's operating performance. Neither FFO nor Recurring FFO (i) represents cash flow from operations as defined by GAAP, (ii) is indicative of cash available to fund all cash flow needs, including the ability to make distributions, (iii) is an alternative to cash flow as a measure of liquidity, or (iv) should be considered as an alternative to net income (which is determined in accordance with GAAP) for purposes of evaluating the company's operating performance. The company believes net income attributable to common shareholders is the most directly comparable GAAP financial measure to FFO and Recurring FFO while income before income taxes is the most directly comparable GAAP financial measure to NOI and same-property NOI and net income (loss) is the most directly comparable GAAP financial measure to EBITDA and Adjusted EBITDA. Reconciliations of these measures to their respective comparable GAAP measures have been provided in the tables accompanying this press release.

Reconciliation of Net Income Attributable to Common Shareholders to FFO and Recurring FFO

The following table reflects the reconciliation of FFO and Recurring FFO to net income attributable to common shareholders, the most directly comparable GAAP measure, for the three and nine months ended September 30, 2015.

	Three Months Ended September 30, 2015	Nine Months Ended September 30, 2015
	(in thousands)	(in thousands)
Net income attributable to common shareholders	\$ 18,860	\$ 23,559
Adjustments:		
Rental property depreciation and amortization	13,452	41,102
Limited partnership interests in operating partnership	1,179	1,605
Funds From Operations	33,491	66,266

Recurring Funds From Operations per diluted share⁽¹⁾	\$ 0.30	\$ 0.90
Weighted average diluted shares ⁽¹⁾	105,436	105,351

⁽¹⁾ Weighted average diluted shares used to calculate FFO per share and Recurring FFO per share for all periods presented is higher than the GAAP diluted weighted average shares as a result of the dilutive impact of the 6.1 million Operating Partnership and LTIP units which are redeemable into our common shares. These redeemable units are not included in the diluted weighted average share count for the periods presented for GAAP purposes because their inclusion is anti-dilutive.

FFO and Recurring FFO are non-GAAP financial measures. The company believes that FFO, as defined by NAREIT, is a widely used and appropriate supplemental measure of operating performance for REITs, and that it provides a relevant basis for comparison among REITs. The company believes that Recurring FFO provides additional comparability between historical financial periods. Refer to “Non-GAAP Financial Measures” above.

Reconciliation of Income before Income Taxes to NOI and Same-Property NOI

Basis of Presentation

The information contained in the Supplemental Disclosure Package does not purport to disclose all items required by GAAP and is unaudited information. This Supplemental Disclosure Package should be read in conjunction with the company’s most recent Form 10-K and Form 10-Q. The results of operations of any property acquired are included in the Company’s financial statements since the date of its acquisition, although such properties may be excluded from certain metrics disclosed in this Supplemental Disclosure Package.

Use of Funds from Operations, Net Operating Income and Earnings Before Interest, Taxes, Depreciation and Amortization as a Non-GAAP Financial Measure

Urban Edge Properties (“we”, “our”, the “Company”) believes Funds From Operations (FFO) (combined with the primary GAAP presentations) is a useful supplemental measure of its operating performance that is a recognized metric used extensively by the real estate industry and, in particular REITs. The National Association of Real Estate Investment Trusts (“NAREIT”) stated in its April 2002 White Paper on FFO, “Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves.” The Company also believes that Recurring FFO is a useful supplemental measure of its core operating performance that facilitates comparability of historical financial periods. FFO, as defined by NAREIT, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of, or impairment charges related to, depreciable operating properties, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. The Company makes certain adjustments to FFO, which it refers to as Recurring FFO, to account for items it does not believe are representative of ongoing operating results, including transaction costs associated with acquisition and disposition activity and non-recurring revenue and expenses. The Company believes that financial analysts, investors and stockholders are better served by the presentation of comparable period operating results generated from its FFO and Recurring FFO measures. The Company’s method of calculating FFO and Recurring FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

The Company uses Net Operating Income (NOI), which is a non-GAAP financial measure, internally as a performance measure and believes NOI provides useful information to investors regarding the Company’s financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level and, when compared across periods, reflects the impact on operations from trends in occupancy rates, rental rates and operating costs on an unleveraged basis. In this Supplemental Disclosure Package, the Company has provided NOI information on a same-property basis. Information provided on a same-property basis includes the results of properties that were owned and operated for the entirety of the reporting periods being compared and excludes properties for which significant redevelopment occurred or are in the foreclosure process during the periods being compared.

Earnings before interest, taxes, depreciation and amortization (EBITDA) is a widely used performance measure and is provided as a supplemental measure of operating performance. The Company makes certain adjustments to EBITDA, which it refers to as Adjusted EBITDA, to account for items it does not believe are representative of ongoing operating results. Given the nature of the Company's business as a real estate owner and operator, it believes that the use of EBITDA and Adjusted EBITDA as opposed to earnings in various financial ratios is helpful to investors as a measure of its operational performance because these computations exclude various items included in earnings that do not relate to or are not indicative of its operating performance, such as gains and losses on sales of real estate and depreciation and amortization, and includes the results of operations of real estate properties that were sold either during or subsequent to the end of a particular reporting period, which are included in earnings on a net basis. Accordingly, the Company believes that the use of EBITDA and Adjusted EBITDA as opposed to earnings in various ratios, provides a meaningful performance measure as it relates to the Company's ability to meet various coverage tests for the stated periods.

EBITDA and Adjusted EBITDA should not be considered as an alternative to earnings as an indicator of the Company's financial performance, or as an alternative to cash flow from operating activities as a measure of its liquidity. The Company's computation of EBITDA and Adjusted EBITDA may differ from the methodology utilized by other companies. Investors are cautioned that items excluded from EBITDA and Adjusted EBITDA are significant components in understanding and assessing the Company's financial performance.

FFO, Recurring FFO, NOI, same-property NOI, EBITDA and Adjusted EBITDA are presented to assist investors in analyzing the Company's operating performance. Neither FFO nor Recurring FFO (i) represents cash flow from operations as defined by GAAP, (ii) is indicative of cash available to fund all cash flow needs, including the ability to make distributions, (iii) is an alternative to cash flow as a measure of liquidity, or (iv) should be considered as an alternative to net income (which is determined in accordance with GAAP) for purposes of evaluating the Company's operating performance. The Company believes net income attributable to common shareholders is the most directly comparable GAAP financial measure to FFO and Recurring FFO while income before income taxes is the most directly comparable GAAP financial measure to NOI and same-property NOI and net income (loss) is the most directly comparable GAAP financial measure to EBITDA and adjusted EBITDA. Reconciliations of these measures to their respective comparable GAAP measures have been provided in the accompanying tables.

⁽¹⁾ G&A expenses excludes \$1.7 million and \$5.0 million reclassified to property operating expenses for the three and nine months ended September 30, 2015, respectively, and an additional \$7.1 million for one-time equity expenses associated with the spin-off for the nine months ended September 30, 2015.

⁽²⁾ Weighted average diluted shares used to calculate FFO per share and Recurring FFO per share for the periods presented is higher than the GAAP diluted weighted average shares as a result of the dilutive impact of the 6.1 million units of limited partnership interests in the operating partnership which are redeemable for our common shares. These redeemable units are not included in the diluted weighted average share count for GAAP purposes for the periods presented because their inclusion is anti-dilutive.

⁽³⁾ The same-property pool for both NOI and occupancy includes retail properties the company consolidated, owned and operated for the entirety of both periods being compared and excludes properties for which significant redevelopment occurred during either of the periods being compared, or properties in foreclosure.

⁽⁴⁾ GLA - retail portfolio excludes 942,000 square feet of warehouses. Weighted average annual rent per square foot for our retail portfolio and warehouses was \$16.04.

⁽⁵⁾ Physical occupancy includes tenants that have access to their leased space and includes dark and paying tenants.

⁽⁶⁾ Our retail portfolio includes shopping centers and malls and excludes warehouses.

⁽⁷⁾ See computation on page 16.

⁽⁸⁾ Excludes signed leases that have not commenced for all retail properties.

FFO and Recurring FFO calculations include earnings allocated to LTIP and OP unit holders and the respective weighted average share totals include the redeemable shares outstanding as their inclusion is dilutive.

⁽²⁾ Weighted average diluted shares used to calculate FFO per share and Recurring FFO per share for the periods presented are higher than the GAAP diluted weighted average shares as a result of the dilutive impact of the 6.1 million OP and LTIP units which are redeemable into our common stock. These redeemable units are not included in the diluted weighted average share count for GAAP purposes because their inclusion is anti-dilutive.

⁽¹⁾ Year of expiration includes tenant renewal options.

⁽²⁾ Weighted average annual rent per square foot is calculated by annualizing tenant's base cash rent, including ground rent, and excludes tenant reimbursements and concessions and storage rent and is adjusted for assumed exercised options using option rents specified in the underlying leases. Weighted average annual base rent for leases whose future option rent is based on fair market value or CPI is reported at the last stated option rent in the respective lease.

Note: Amounts shown in table above includes both current leases and signed leases that have not commenced for all retail properties (including properties in redevelopment). The average base rent for our warehouse property assuming exercise of all options at future tenant rent (excluded from the table above) is \$5.47 per square foot as of September 30, 2015.

⁽¹⁾ Percent leased is expressed as a percent of total square feet (gross leasable area) subject to a lease.

⁽²⁾ Weighted average annual rent per square foot is calculated by annualizing tenant's current base rent, including ground rent, and excludes tenant reimbursements, concessions and storage rent. Excluding the ground leases, the weighted average annual rent per square foot for our retail portfolio is \$19.38 per square foot.

⁽³⁾ Denotes that property is included in a cross-collateralized securitization. The amount of Mortgage Debt secured by our properties at East Brunswick and East Hanover (200-240 Route 10 West) contains parcels that are separately identified in our 40 property cross-collateralized securitization.

⁽⁴⁾ Our ownership of Walnut Creek (Mt. Diablo) is 95% at September 30, 2015.

⁽⁵⁾ The tenant has ceased operations at this location but continues to pay rent.

⁽¹⁾ Project costs includes the allocation of internal costs such as labor, interest, and taxes

⁽²⁾ Targeted completion and potential investment are subject to change resulting from uncertainties inherent in the development process and not wholly under the company's control.

⁽³⁾ Project GLA is subject to change based upon build-to-suit and other tenant-driven requirements.

⁽⁴⁾ Total GLA represents all GLA for the corresponding property and includes portions of the center not subject to redevelopment.

⁽⁵⁾ Target Stabilization Date reflects the first full year in which the property is 90% leased. Properties may continue to be reflected in development or redevelopment until they are included in the company's same-property pool, which is normally one year from rent commencement. This period may be in excess of one year to the extent that the anchors commence rent, but receive rent concessions or other forms of reduced rent, for a limited period following rent commencement.

⁽⁶⁾ Reflects costs after construction cost reimbursements and expenses paid by Vornado.

⁽⁷⁾ Results from Garfield and Walnut Creek are included in our same-property metrics as no tenants have vacated as of the end of the quarter and no GLA had been taken out of service.

⁽¹⁾ Subject to a LIBOR floor of 1.00%, currently bears interest at LIBOR plus 136 bps.

⁽²⁾ On January 6, 2015, we completed a loan restructuring applicable to the \$120 million, 6.04% mortgage loan secured by Montehiedra Town Center. The loan has been extended from July 2016 to July 2021 and separated into two tranches, a senior \$90 million position with interest at 5.33% to be paid currently, and a junior \$30.0 million position with interest accruing at 3%. As part of the planned redevelopment of the property, the Company is committed to fund \$20 million for leasing and building capital expenditures of which \$8 million has been funded as of September 30, 2015.

⁽³⁾ This loan was repaid on March 10, 2015.

⁽⁴⁾ This loan was repaid on February 11, 2015.

⁽⁵⁾ On March 30, 2015, we notified the lender that the property's operating cash flow will be insufficient to pay the debt service; accordingly, at our request, the mortgage loan was transferred to the special servicer. As of September 30, 2015 we remain in discussions with the special servicer to restructure the terms of the loan including the possibility that the lender will take possession of the property.

⁽⁶⁾ See Property Status Report on page 22 for each property that comprises the 40 property securitization.

⁽⁷⁾ The mortgage payable balance on the loan secured by Mt. Kisco -Target includes \$1,161 and \$1,207 of unamortized debt discount as of September 30, 2015 and December 31, 2014, respectively, the effective interest rate including amortization of the debt discount is 7.30% as of September 30, 2015.
