FOR IMMEDIATE RELEASE:

Urban Edge Properties Reports First Quarter 2018 Results

NEW YORK, NY, May 2, 2018 - Urban Edge Properties (NYSE:UE) (the "Company") today announced its results for the quarter ended March 31, 2018.

Financial Results⁽¹⁾⁽²⁾

- Generated net income of \$23.0 million, or \$0.18 per diluted share.
- Generated Funds from Operations applicable to diluted common shareholders ("FFO") of \$44.1 million, or \$0.35 per share.
- Generated FFO as Adjusted of \$41.3 million or \$0.33 per share, consistent with the first quarter of 2017.
- Increased current cash balance to \$515 million, up nearly \$400 million compared to March 31, 2017.

Operating Results⁽¹⁾

- Increased same-property cash Net Operating Income ("NOI") by 2.4% over the first quarter of 2017 due to rent commencements and higher recovery revenue.
- Increased same-property cash NOI including properties in redevelopment by 2.7% over the first quarter of 2017.
- Reported same-property retail portfolio occupancy of 98.2%, a decrease of 20 basis points compared to March 31, 2017 and 10 basis points from December 31, 2017.
- Reported consolidated retail portfolio occupancy of 96.1%, down 110 basis points compared to March 31, 2017 as a result of the acquisition of centers with lower occupancy than our existing portfolio in the second quarter of 2017. This metric increased

10 basis points compared to December 31, 2017.

- Executed 35 new leases, renewals and options totaling 597,000 square feet (sf). Same-space leases totaled 504,000 sf and generated average rent spreads of 12.8% on a GAAP basis and 6.9% on a cash basis.

Leasing Activity

Leasing activity during the first quarter was strong. Approximately 151,000 sf of new leases were executed of which only four leases comprising 58,000 sf were on comparable same space locations including a 53,000 sf furniture store located in Glen Burnie, MD which negatively impacted the reported cash leasing spread. Eleven new leases comprising 93,000 sf were executed on newly created or redeveloped spaces for which the new cash rent averaged \$41.54 psf.

Development, Redevelopment and Anchor Repositioning Activity

The Company is investing \$363 million to renovate and remerchandise 27 of its properties. New retailers include ShopRite, Sprouts, Marshalls, Homesense, Burlington, Best Buy, Ulta, Five Below, Starbucks and Chick-fil-A. It has completed \$64 million in projects in the last 12 months, has \$206 million underway and has approximately \$93 million in its pipeline. There are \$200 million of remaining costs to complete these redevelopment projects. The Company expects to earn approximately 9% on its total investment.

The Company's largest projects include Bergen Town Center and Bruckner Commons. At Bergen, Best Buy just opened its newest prototype store and construction is underway on a new 47,000 sf Burlington expected to open in April 2019. Enhanced food offerings include Cava Grill, Ruth's Chris Steakhouse and a daytime café. At Bruckner, ShopRite and Burlington are opening this summer.

Disposition Activity

On April 26, 2018, the Company sold MacArthur Commons in Allentown, PA for \$55 million, consistent with the plan to dispose of assets in non-core markets.

Balance Sheet Highlights at March 31, 2018⁽¹⁾⁽³⁾⁽⁴⁾

- Total market capitalization of approximately \$4.3 billion comprising 126.8 million, fully diluted common shares valued at \$2.7 billion and \$1.6 billion of debt.
- Net debt to total market capitalization of 26%.
- Net debt to Adjusted Earnings before interest, tax, depreciation and amortization for real estate ("EBITDAre") of 4.8x.
- \$473.6 million of cash and cash equivalents, including restricted cash, and no amounts drawn on the \$600 million revolving credit facility.

⁽¹⁾ Refer to "Non-GAAP Financial Measures" and "Operating Metrics" for definitions and additional detail.

⁽²⁾ Refer to page 8 for a reconciliation of net income to FFO and FFO as Adjusted for the quarter ended March 31, 2018.

⁽³⁾ Refer to page 10 for a reconciliation of net income to EBITDAre and annualized Adjusted EBITDAre for the quarter ended March 31, 2018.

⁽⁴⁾ Net debt as of March 31, 2018 is calculated as total consolidated debt of \$1.6 billion less total cash and cash equivalents, including restricted cash, of \$473.6 million.

Non-GAAP Financial Measures

The Company uses certain non-GAAP performance measures, in addition to the primary GAAP presentations, as we believe these measures improve the understanding of the Company's operational results. We continually evaluate the usefulness, relevance, limitations, and calculation of our reported non-GAAP performance measures to determine how best to provide relevant information to the investing public, and thus such reported measures are subject to change. The Company's non-GAAP performance measures have limitations as they do not include all items of income and expense that affect operations, and accordingly, should always be considered as supplemental financial results. The following non-GAAP measures are commonly used by the Company and investing public to understand and evaluate our operating results and performance:

- **FFO:** The Company believes FFO is a useful, supplemental measure of its operating performance that is a recognized metric used extensively by the real estate industry and, in particular REITs. FFO, as defined by the National Association of Real Estate Investment Trusts ("NAREIT") and the Company, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated real estate assets, real estate impairment losses, rental property depreciation and amortization expense. The Company believes that financial analysts, investors and shareholders are better served by the presentation of comparable period operating results generated from FFO primarily because it excludes the assumption that the value of real estate assets diminish predictably. FFO does not represent cash flows from operating activities in accordance with GAAP, should not be considered an alternative to net income as an indication of our performance, and is not indicative of cash flow as a measure of liquidity or our ability to make cash distributions.
- **FFO as Adjusted:** The Company provides disclosure of FFO as Adjusted because it believes it is a useful supplemental measure of its core operating performance that facilitates comparability of historical financial periods. FFO as Adjusted is calculated by making certain adjustments to FFO to account for items the Company does not believe are representative of ongoing core operating results including non-comparable revenues and expenses. The Company's method of calculating FFO as Adjusted may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.
- **Cash NOI:** The Company uses cash NOI internally to make investment and capital allocation decisions and to compare the unlevered performance of our properties to our peers. The Company believes cash NOI is useful to investors as a performance measure because, when compared across periods, cash NOI reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and disposition activity on an unleveraged basis, providing perspective not immediately apparent from operating income or net income. The Company calculates cash NOI using net income as defined by GAAP reflecting only those income and expense items that are incurred at the property level, adjusted for the following items: lease termination fees, bankruptcy settlement income, non-cash rental income and ground rent expense and income or expenses that we do not believe are representative of ongoing operating results, if any.
- **Same-property Cash NOI:** The Company provides disclosure of cash NOI on a same-property basis, which includes the results of properties that were owned and operated for the entirety of the reporting periods being compared totaling 75 properties for the three months ended March 31, 2018 and 2017. Information provided on a same-property basis excludes properties under development, redevelopment or that involve anchor repositioning where a substantial portion of the gross leasable area ("GLA") is taken out of service and also excludes properties acquired, sold, or under contract to be sold during the periods being compared. As such, same-property cash NOI assists in eliminating disparities in net income due to the development, redevelopment, acquisition or disposition of properties during the periods presented, and thus provides a more consistent performance measure for the comparison of the operating performance of the Company's properties. While there is judgment surrounding changes in designations, a property is removed from the same-property pool when it is designated as a redevelopment property because it is undergoing significant renovation or retenanting pursuant to a formal plan that is expected to have a significant impact on its operating income. A development or redevelopment property is moved back to the same-property pool once a substantial portion of the NOI growth expected from the development or redevelopment is reflected in both the current and comparable prior year period, generally one year after at least 80% of the expected NOI from the project is realized on a cash basis. Acquisitions are moved into the same-property pool once we have owned the property for the entirety of the comparable periods and the property is not under significant development or redevelopment. The Company has also provided disclosure of cash NOI on a same-property basis adjusted to include redevelopment properties. Same-property cash NOI may include other adjustments as detailed in the Reconciliation of Net Income to cash NOI and same-property cash NOI included in the tables accompanying this press release.

- **EBITDAre and Adjusted EBITDAre:** EBITDAre and Adjusted EBITDAre are supplemental, non-GAAP measures utilized by us in various financial ratios. The White Paper on EBITDAre, approved by NAREIT's Board of Governors in September 2017, defines EBITDAre as net income (computed in accordance with GAAP), adjusted for interest expense, income tax expense, depreciation and amortization, losses and gains on the disposition of depreciated property, impairment write-downs of depreciated property and investments in unconsolidated joint ventures, and adjustments to reflect the entity's share of EBITDAre of unconsolidated joint ventures. EBITDAre and Adjusted EBITDAre are presented to assist investors in the evaluation of REITs, as a measure of the Company's operational performance as they exclude various items that do not relate to or are not indicative of our operating performance and because they approximate key performance measures in our debt covenants. Accordingly, the Company believes that the use of EBITDAre and Adjusted EBITDAre, as opposed to income before income taxes in various ratios, provides meaningful performance measures related to the Company's ability to meet various coverage tests for the stated periods. The Company also presents the ratio of net debt (net of cash) to annualized Adjusted EBITDAre for the first quarter of 2018, and net debt (net of cash) to total market capitalization, which it believes is useful to investors as a supplemental measure in evaluating the Company's balance sheet leverage. The presentation of EBITDAre and Adjusted EBITDAre are consistent with EBITDA and Adjusted EBITDA as presented in prior periods.

The Company believes net income is the most directly comparable GAAP financial measure to the non-GAAP performance measures outlined above. Reconciliations of these measures to net income have been provided in the tables accompanying this press release.

Operating Metrics

The Company presents certain operating metrics related to our properties including occupancy, leasing activity and rental rates. Operating metrics are used by the Company and are useful to investors in facilitating an understanding of the operational performance for our properties.

Occupancy metrics represent the percentage of occupied gross leasable area based on executed leases (including properties in development and redevelopment) and includes leases signed, but for which rent has not yet commenced. Same-property retail portfolio occupancy includes shopping centers and malls that have been owned and operated for the entirety of the reporting periods being compared totaling 75 properties for the three months ended March 31, 2018 and 2017. Occupancy metrics presented for the Company's same-property retail portfolio excludes properties under development, redevelopment or that involve anchor repositioning where a substantial portion of the gross leasable area is taken out of service and also excludes properties acquired within the past 12 months, properties sold, or under contract to be sold during the periods being compared.

Executed new leases, renewals and exercised options are presented on a same-space basis. Same-space leases represent those leases signed on spaces for which there was a previous lease with comparable gross leasable area.

FOR IMMEDIATE RELEASE:

Urban Edge Properties Reports First Quarter 2018 Results

NEW YORK, NY, May 2, 2018 - Urban Edge Properties (NYSE:UE) (the "Company") today announced its results for the quarter ended March 31, 2018.

Financial Results⁽¹⁾⁽²⁾

- Generated net income of \$23.0 million, or \$0.18 per diluted share.
- Generated Funds from Operations applicable to diluted common shareholders ("FFO") of \$44.1 million, or \$0.35 per share.
- Generated FFO as Adjusted of \$41.3 million or \$0.33 per share, consistent with the first quarter of 2017.
- Increased current cash balance to \$515 million, up nearly \$400 million compared to March 31, 2017.

Operating Results⁽¹⁾

- Increased same-property cash Net Operating Income ("NOI") by 2.4% over the first quarter of 2017 due to rent commencements and higher recovery revenue.
- Increased same-property cash NOI including properties in redevelopment by 2.7% over the first quarter of 2017.
- Reported same-property retail portfolio occupancy of 98.2%, a decrease of 20 basis points compared to March 31, 2017 and 10 basis points from December 31, 2017.
- Reported consolidated retail portfolio occupancy of 96.1%, down 110 basis points compared to March 31, 2017 as a result of the acquisition of centers with lower occupancy than our existing portfolio in the second quarter of 2017. This metric increased 10 basis points compared to December 31, 2017.
- Executed 35 new leases, renewals and options totaling 597,000 square feet (sf). Same-space leases totaled 504,000 sf and generated average rent spreads of 12.8% on a GAAP basis and 6.9% on a cash basis.

Leasing Activity

Leasing activity during the first quarter was strong. Approximately 151,000 sf of new leases were executed of which only four leases comprising 58,000 sf were on comparable same space locations including a 53,000 sf furniture store located in Glen Burnie, MD which negatively impacted the reported cash leasing spread. Eleven new leases comprising 93,000 sf were executed on newly created or redeveloped spaces for which the new cash rent averaged \$41.54 psf.

Development, Redevelopment and Anchor Repositioning Activity

The Company is investing \$363 million to renovate and remerchandise 27 of its properties. New retailers include ShopRite, Sprouts, Marshalls, Homesense, Burlington, Best Buy, Ulta, Five Below, Starbucks and Chick-fil-A. It has completed \$64 million in projects in the last 12 months, has \$206 million underway and has approximately \$93 million in its pipeline. There are \$200 million of remaining costs to complete these redevelopment projects. The Company expects to earn approximately 9% on its total investment.

The Company's largest projects include Bergen Town Center and Bruckner Commons. At Bergen, Best Buy just opened its newest prototype store and construction is underway on a new 47,000 sf Burlington expected to open in April 2019. Enhanced food offerings include Cava Grill, Ruth's Chris Steakhouse and a daytime café. At Bruckner, ShopRite and Burlington are opening this summer.

Disposition Activity

On April 26, 2018, the Company sold MacArthur Commons in Allentown, PA for \$55 million, consistent with the plan to dispose of assets in non-core markets.

Balance Sheet Highlights at March 31, 2018⁽¹⁾⁽³⁾⁽⁴⁾⁽⁵⁾

- Total market capitalization of approximately \$4.3 billion comprising 126.8 million, fully diluted common shares valued at \$2.7 billion and \$1.6 billion of debt.
- Net debt to total market capitalization of 26%.
- Net debt to Adjusted Earnings before interest, tax, depreciation and amortization for real estate ("EBITDAre") of 4.8x.
- \$473.6 million of cash and cash equivalents, including restricted cash, and no amounts drawn on the \$600 million revolving credit facility.

⁽¹⁾ Refer to "Non-GAAP Financial Measures" and "Operating Metrics" for definitions and additional detail.

⁽²⁾ Refer to page 5 for a reconciliation of net income to FFO and FFO as Adjusted for the quarter ended March 31, 2018.

⁽³⁾ Refer to page 7 for a reconciliation of net income to EBITDAre and annualized Adjusted EBITDAre for the quarter ended March 31, 2018.

⁽⁴⁾ Net debt as of March 31, 2018 is calculated as total consolidated debt of \$1.6 billion less total cash and cash equivalents, including restricted cash, of \$473.6 million.

⁽⁵⁾ Refer to page 16 for the calculation of market capitalization as of March 31, 2018.

Non-GAAP Financial Measures

The Company uses certain non-GAAP performance measures, in addition to the primary GAAP presentations, as we believe these measures improve the understanding of the Company's operational results. We continually evaluate the usefulness, relevance, limitations, and calculation of our reported non-GAAP performance measures to determine how best to provide relevant information to the investing public, and thus such reported measures are subject to change. The Company's non-GAAP performance measures have limitations as they do not include all items of income and expense that affect operations, and accordingly, should always be considered as supplemental financial results. The following non-GAAP measures are commonly used by the Company and investing public to understand and evaluate our operating results and performance:

- **FFO:** The Company believes FFO is a useful, supplemental measure of its operating performance that is a recognized metric used extensively by the real estate industry and, in particular REITs. FFO, as defined by the National Association of Real Estate Investment Trusts ("NAREIT") and the Company, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciated real estate assets, real estate impairment losses, rental property depreciation and amortization expense. The Company believes that financial analysts, investors and shareholders are better served by the presentation of comparable period operating results generated from FFO primarily because it excludes the assumption that the value of real estate assets diminish predictably. FFO does not represent cash flows from operating activities in accordance with GAAP, should not be considered an alternative to net income as an indication of our performance, and is not indicative of cash flow as a measure of liquidity or our ability to make cash distributions.
- **FFO as Adjusted:** The Company provides disclosure of FFO as Adjusted because it believes it is a useful supplemental measure of its core operating performance that facilitates comparability of historical financial periods. FFO as Adjusted is calculated by making certain adjustments to FFO to account for items the Company does not believe are representative of ongoing core operating results including non-comparable revenues and expenses. The Company's method of calculating FFO as Adjusted may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.
- **Cash NOI:** The Company uses cash NOI internally to make investment and capital allocation decisions and to compare the unlevered performance of our properties to our peers. The Company believes cash NOI is useful to investors as a performance measure because, when compared across periods, cash NOI reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and disposition activity on an unleveraged basis, providing perspective not immediately apparent from operating income or net income. The Company calculates cash NOI using net income as defined by GAAP reflecting only those income and expense items that are incurred at the property level, adjusted for the following items: lease termination fees, bankruptcy settlement income, non-cash rental income and ground rent expense and income or expenses that we do not believe are representative of ongoing operating results, if any.
- **Same-property Cash NOI:** The Company provides disclosure of cash NOI on a same-property basis, which includes the results of properties that were owned and operated for the entirety of the reporting periods being compared totaling 75 properties for the three months ended March 31, 2018 and 2017. Information provided on a same-property basis excludes properties under development, redevelopment or that involve anchor repositioning where a substantial portion of the gross leasable area ("GLA") is taken out of service and also excludes properties acquired, sold, or under contract to be sold during the periods being compared. As such, same-property cash NOI assists in eliminating disparities in net income due to the development, redevelopment, acquisition or disposition of properties during the periods presented, and thus provides a more consistent performance measure for the comparison of the operating performance of the Company's properties. While there is judgment surrounding changes in designations, a property is removed from the same-property pool when it is designated as a redevelopment property because it is undergoing significant renovation or retenuing pursuant to a formal plan that is expected to have a significant impact on its operating income. A development or redevelopment property is moved back to the same-property pool once a substantial portion of the NOI growth expected from the development or redevelopment is reflected in both the current and comparable prior year period, generally one year after at least 80% of the expected NOI from the project is realized on a cash basis. Acquisitions are moved into the same-property pool once we have owned the property for the entirety of the comparable periods and the property is not under significant development or redevelopment. The Company has also provided disclosure of cash NOI on a same-property basis adjusted to include redevelopment properties. Same-property cash NOI may include other adjustments as detailed in the Reconciliation of Net Income to cash NOI and same-property cash NOI included in the tables accompanying this press release.

- **EBITDAre and Adjusted EBITDAre:** EBITDAre and Adjusted EBITDAre are supplemental, non-GAAP measures utilized by us in various financial ratios. The White Paper on EBITDAre, approved by NAREIT's Board of Governors in September 2017, defines EBITDAre as net income (computed in accordance with GAAP), adjusted for interest expense, income tax expense, depreciation and amortization, losses and gains on the disposition of depreciated property, impairment write-downs of depreciated property and investments in unconsolidated joint ventures, and adjustments to reflect the entity's share of EBITDAre of unconsolidated joint ventures. EBITDAre and Adjusted EBITDAre are presented to assist investors in the evaluation of REITs, as a measure of the Company's operational performance as they exclude various items that do not relate to or are not indicative of our operating performance and because they approximate key performance measures in our debt covenants. Accordingly, the Company believes that the use of EBITDAre and Adjusted EBITDAre, as opposed to income before income taxes in various ratios, provides meaningful performance measures related to the Company's ability to meet various coverage tests for the stated periods. The Company also presents the ratio of net debt (net of cash) to annualized Adjusted EBITDAre for the first quarter of 2018, and net debt (net of cash) to total market capitalization, which it believes is useful to investors as a supplemental measure in evaluating the Company's balance sheet leverage. The presentation of EBITDAre and Adjusted EBITDAre are consistent with EBITDA and Adjusted EBITDA as presented in prior periods.

The Company believes net income is the most directly comparable GAAP financial measure to the non-GAAP performance measures outlined above. Reconciliations of these measures to net income have been provided in the tables accompanying this press release.

Operating Metrics

The Company presents certain operating metrics related to our properties including occupancy, leasing activity and rental rates. Operating metrics are used by the Company and are useful to investors in facilitating an understanding of the operational performance for our properties.

Occupancy metrics represent the percentage of occupied gross leasable area based on executed leases (including properties in development and redevelopment) and includes leases signed, but for which rent has not yet commenced. Same-property retail portfolio occupancy includes shopping centers and malls that have been owned and operated for the entirety of the reporting periods being compared totaling 75 properties for the three months ended March 31, 2018 and 2017. Occupancy metrics presented for the Company's same-property retail portfolio excludes properties under development, redevelopment or that involve anchor repositioning where a substantial portion of the gross leasable area is taken out of service and also excludes properties acquired within the past 12 months, properties sold, or under contract to be sold during the periods being compared.

Executed new leases, renewals and exercised options are presented on a same-space basis. Same-space leases represent those leases signed on spaces for which there was a previous lease with comparable gross leasable area.

Reconciliation of Net Income to FFO and FFO as Adjusted

The following table reflects the reconciliation of net income to FFO and FFO as Adjusted for the quarter ended March 31, 2018. Net income is considered the most directly comparable GAAP measure. Refer to "Non-GAAP Financial Measures" on page 3 for a description of FFO and FFO as Adjusted.

⁽¹⁾ Cash NOI is calculated as total property revenues less property operating expenses excluding the net effects of non-cash rental income and non-cash ground rent expense.

⁽²⁾ Non-same property cash NOI includes cash NOI related to properties being redeveloped and properties acquired or disposed.

⁽³⁾ Amount reflects rental and tenant reimbursement losses as well as provisions for outstanding amounts due from tenants at Las Catalinas that are subject to reimbursement from the insurance company.

⁽⁴⁾ Excludes \$0.5 million of rental and tenant reimbursement losses as well as provisions for outstanding amounts due from tenants at Montehiedra that are subject to reimbursement from the insurance company.

⁽⁵⁾ Casualty and impairment gain of \$1.3 million per the consolidated statements of income is comprised of a \$1.5 million insurance gain net of \$0.2 million hurricane-related expenses for the first quarter of 2018. Casualty and impairment loss for the first quarter of 2017 is comprised of a \$3.2 million real estate impairment loss incurred related to our property in Eatontown, NJ sold in the second quarter of 2017.

Reconciliation of Net Income to EBITDAre and Adjusted EBITDAre

⁽¹⁾ Represents earnings allocated to LTIP and OP unit holders for unissued common shares which have been excluded for purposes of calculating earnings per diluted share for the periods presented. FFO applicable to diluted common shareholders and FFO as Adjusted applicable to diluted common shareholders calculations include earnings allocated to LTIP and OP unit holders and the respective weighted average share totals include the redeemable shares outstanding as their inclusion is dilutive.

⁽²⁾ Weighted average diluted shares used to calculate FFO per share and FFO as Adjusted per share for the periods presented are higher than the GAAP weighted average diluted shares as a result of the dilutive impact of LTIP and OP units which may be redeemed for our common shares for the three months ended March 31, 2018 and 2017, respectively. These redeemable units are not included in the weighted average diluted share count for GAAP purposes because their inclusion is anti-dilutive.

⁽¹⁾ Year of expiration includes tenant renewal options.

⁽²⁾ Weighted average annual base rent per square foot is calculated by annualizing tenants' in-place, contractual, cash-basis rent including ground rent and excludes tenant reimbursements, concessions and storage rent and is adjusted assuming all option rents specified in the underlying leases are exercised. Weighted average annual base rent for leases whose future option rent is based on fair market value or CPI is reported at the last stated option rent in the respective lease.

Note: Amounts shown in table above include both current leases and signed leases that have not commenced on vacant spaces for all retail properties (including properties in redevelopment). The average base rent for our 942,000 square-foot warehouse property (excluded from the table above) assuming exercise of all options at future tenant rent is \$5.93 per square foot as of March 31, 2018.

⁽¹⁾ Percent leased is expressed as the percentage of gross leasable area subject to a lease.

⁽²⁾ Weighted average annual base rent per square foot is the current base rent on an annualized basis. It includes executed leases for which rent has not commenced and excludes tenant expense reimbursements, free rent periods, concessions and storage rent. Excluding ground leases where the Company is the lessor, the weighted average annual rent per square foot for our retail portfolio is \$19.87 per square foot.

⁽³⁾ The Company is a lessee under a ground or building lease. The total square feet disclosed for the building will revert to the lessor upon lease expiration except at Salem where the ground lease is for a portion of the parking area only.

⁽⁴⁾ Our ownership of Walnut Creek (Mt. Diablo) is 95%.

⁽⁵⁾ The tenant never commenced operations at this location but continues to pay rent.

⁽⁶⁾ Not included in the same-property pool for the purposes of calculating same-property cash NOI.

⁽⁷⁾ Mortgage debt balances exclude unamortized debt issuance costs.

⁽¹⁾ Estimated gross cost includes the allocation of internal costs such as labor, interest and taxes.

⁽²⁾ Target Stabilization reflects the first quarter in which at least 80% of the expected cash NOI from the project is realized. A project achieving Target Stabilization is classified as Completed whether or not all costs have been expended and remains listed as a Completed project for one year in the table on page 27. The Target Stabilization date is an estimate and is subject to change resulting from uncertainties inherent in the development process and not wholly under the Company's control.

⁽³⁾ Results from these properties are included in our same-property metrics.

⁽⁴⁾ The estimated, unleveraged yield for Active projects is 7% based on total estimated project costs for and the incremental, unleveraged NOI directly attributable to the projects. The incremental, unleveraged NOI for Active projects excludes NOI generated outside the project scope such as the impact on future lease rollovers or on the long-term value of the property.

⁽¹⁾ Estimated gross cost includes the allocation of internal costs such as labor, interest and taxes.

⁽²⁾ Target Stabilization reflects the first quarter in which at least 80% of the expected cash NOI from the project is realized. A project achieving Target Stabilization is classified as Completed whether or not all costs have been expended and remains listed as a Completed project for one year in the table above. The Target Stabilization date is an estimate and is subject to change resulting from uncertainties inherent in the development process and not wholly under the Company's control.

⁽³⁾ Results from these properties are included in our same-property metrics.

⁽⁴⁾ Estimated Stabilization and Estimated Gross Cost are subject to change from uncertainties inherent in the development process and not wholly under the Company's control.

⁽⁵⁾ Estimated Stabilization reflects the first year in which Target Stabilization occurs. See footnote 2 above.

⁽⁶⁾ The estimated, unleveraged yields for Completed and Pipeline projects are 16% and 9%, respectively, based on the total, estimated project costs of and the incremental, unleveraged NOI expected from the projects. The incremental, unleveraged NOI for Completed and Pipeline projects excludes NOI generated outside the project scope such as the impact on future lease rollovers or on the long-term value of the property.
